

Expression of Interest—Open Philanthropy’s Regranting Challenge

This file is for informational purposes only. To submit your expression of interest, please click [here](#).

1. Please provide an email address for the primary point of contact for the Regranting Challenge.

We will send confirmation that your initial expression of interest has been received to this address. We will also contact this email address with a decision and – if applicable – instructions for the first-round application.

2. What name should we use for the primary point of contact for the Regranting Challenge?

3. What is the applying program/organization?

Please err on the side of including more details if there is scope for ambiguity. From now on, we will refer to this identified group as the “applying program” or “you”.

We recommend grantmaking organizations with constituent program areas that separately meet the budget requirement (\$10 million in grantmaking per year for at least three years) to apply as individual program areas, provided their host organization commits to budget maintenance. Please see our [FAQs](#) for further details. If you have further questions, please contact regranting.help@openphilanthropy.org.

4. In what country (or countries) is your organization legally incorporated?

Please note that we will generally be able to find a way to fund your organization if we can verify that the work we will fund is charitable. See the [FAQs](#) for more details.

5. Please describe your goal(s) in no more than 300 words.

We want to understand what you are trying to achieve as an organization.

6. Please describe your strategy to achieve these goal(s) in no more than 300 words.

7. Please describe the biggest accomplishments which your grants have enabled in the last five years in no more than 300 words.

Please focus on one or more accomplishments that help us understand your past impact in one or more of our focus areas for the Regranting Challenge (human health, economic development, and/or climate change).

8. What was your annual grantmaking budget between January 1, 2019 and December 31, 2021?

Please provide the total amount of your grantmaking budget by calendar year. If your grantmaking was atypical for that period (e.g., as a result of the Covid-19 pandemic), please also describe your annual grantmaking budget in a typical, three-year period. Please only include grantmaking related to human health, economic development, and climate change.

9. (Optional) Please provide links to any public materials that summarize your program's work and efforts to measure impact (e.g. a grants database, an annual report, a white paper).

Please do not share more than 5 links.

10. (Optional) Is there any other brief context we should have?

It is absolutely fine to leave this space blank. Please do not write more than 300 words.

11. (Optional) Are there any other grantmaking organizations and/or program areas you think especially highly of and would recommend we contact to encourage to apply for the Regranting Challenge?
